- Contractors

Create legends from both highlight and text queries. Combine 'by-owner' and ad-hoc room queries to generate cross-tab legends.

Display text from multiple tables, or from queries against the same table, in any font, color, and size.

Hide text in certain spaces to enhance drawing appearance and readability.

**Get the EZ-Hatch Advantage.**

To find out how EZ-Hatch can help your organization streamline facilities drawing production, contact your ARCHIBUS Business Partner today, or call us at 650-344-1002. You can get further information on our website at [www.cafmtechniques.com](http://www.cafmtechniques.com).
